The agmai Staininet

your journey to mastery

Agenda

Intro

Was ist ein "Pragmatic Programmer"?

- Early/fast adopter
- Inquisitive, oder "Gwundrig"
- Kritischer Denker
- Realist
- Jack of all trades

Think about your work

 Klingt das anstrengend, bist du ein Realist

Care about your craft

• There is no point in developing software unless you care about doing it well.

It's your life, take responsibility

 You can change your organization or you can change your organization

Die Philosophie

Software Entropie

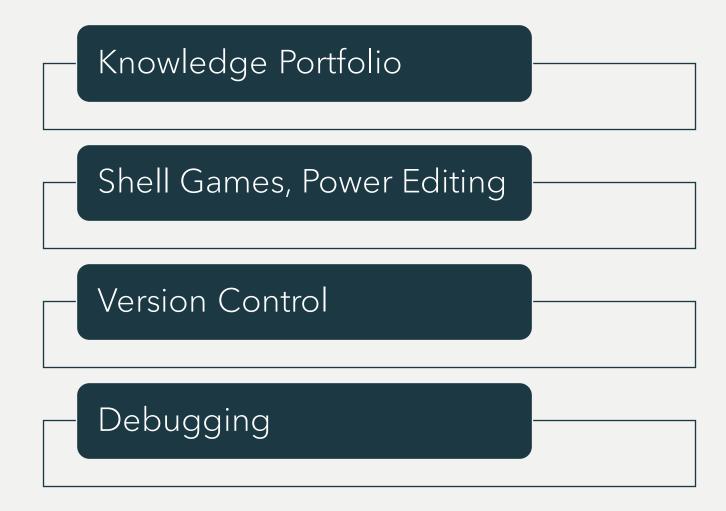

• Broken Windows

Veränderung

 Die Geschichte der Steinsuppe oder der Frosch im Kochtopf

Wissen,
Technologien,
beherrschen
der Tools

The Essence of Good Design: Entscheidungen treffen

Code

Tracer Bullets

Prototypes

Methodik

Bend or Break

Ausdruck im Code wie in der Sprache

Dokumentation

Kommunizieren

Ja sagen, Nein sagen

Pragmatic Teams und Pragmatic Projects

ESTIMATING

REQUIREMENTS

SOLVING IMPOSSIBLE PUZZLES

WORKING TOGETHER

"agile thinking"

DON'T PANIC AND CARRY A TOWEL

"SO LONG AND THANKS FOR ALL THE FISH"

- Douglas Adams
